

REMARKS

Claims 1, 4-11 and 21 - 27 are pending in the present application. Claims 14 - 17, 19 and 28 - 49 have been cancelled without prejudice. Claims 21 and 26 have been amended

Applicant notes with thanks and appreciation that claims 1, 4 - 7, 11, 19 and 21 - 27 are allowable over the cited art.

Claims 19 and 26 were rejected under the judicially created doctrine of obviousness double patenting over claims 10 and 11 of US Patent 6,724,510. Claims 21 and 27 were objected to as being dependent upon a rejected base claim. Claim 19 has been cancelled. Claim 21 has been rewritten in independent form. Claim 27 depends from Claim 21 and Claim 26 has been amended to depend from claim 21. Accordingly, Applicant respectfully asserts that Claims 21, 26 and 27 are patentable. Applicant further asserts that there is no double patenting and that thus no terminal disclaimer is necessary .

Claims 8 - 10 were rejected under 35 USC §112, first paragraph as failing to comply with the written description requirement. Applicant respectfully asserts the subject matter was described in the application and directs the Examiner's attention to, for example, page 8, lines 1 - 5 in which the Applicant states that the movable reflector can be oscillated or vibrated using "inductive vibration around an axis of torsion, vibration in inflection, inductive vibration and vibration on an axis of galvanometric type, in resonance or not." Accordingly, claims 8 - 10 are patentable.

CONCLUSION

Applicant asserts that all of the objections have been obviated and, therefore now respectfully requests examination on the merits.

Respectfully submitted,

Catherine L. Gemrich
